

PRECISION. Noun: the quality, condition, or fact of being exact and accurate.

BUILT FOR YOU. Extraordinary craftsmanship is intrinsic within the creation of a Wilson Benesch product. Every Precision Series model now built will be customised for the client to ensure that you get the most from your personal home audio loudspeaker system both sonically and aesthetically. An exclusive Precision Black or Precision White textured finish across the aluminium forms of the Precision Series now combine with a range of luxurious architectural finishes providing the perfect harmony within your interior design.

BESPOKE. Every Wilson Benesch product is shaped by pioneering technology and our pursuit of precision engineering. The Precision Series now puts you, the owner, at the centre of the process, allowing you to create a truly unique pair of loudspeakers. The innovative new range of Precision Series finishes are not only beautiful, but extremely durable, stable in any climate and come with a very low environmental impact.

Every time you approach your Precision Series loudspeaker, you'll feel the same sense of pride and excitement. Every surface, every detail has been painstakingly refined to create an unmistakable statement of Wilson Benesch product design.

Start your Journey now.
